

FASDetect

Privacy Policy

This is the privacy policy of the *FASDetect*. It applies from November 14, 2021. You will be prompted to acknowledge this information every time you use FASDetect; we will not notify you if the information is updated because we do not store any data regarding your usage of *FASDetect*.

Which data is stored?

FASDetect does not permanently store user data. No user accounts are needed to access *FASDetect* and no usage data is collected. Data that is entered into the application is sent to the backend and processed immediately. Neither the transmitted data, nor the classification result are saved.

In all other respects, HPI's privacy policy applies¹.
